

Caught without my wings
Lost and sad alone
To the end I've seen
Love become a curse

With you I can't be nothing at all
What I've seen names
With you I can't feel nothing at all
What I've seen games

Come around, lately
I'm not the one to know
Pulling out my teeth
Can't wait to be alone

And pages will fall like leaves in the wind
Inside
And people will tell themselves resist
To survive

With you I can't be nothing at all
What I've seen names
With you I can't feel nothing at all
What I've seen games

Caught without my wings
Lost and sad alone
To the end I've seen
Love become a curse

With you I can't be nothing at all
What I've seen games
With you I can't feel nothing at all
At all, at all, at all
With you I can't feel nothing at all
(With you)
What I've seen games
With you I can't feel nothing at all
At all, at all, at all

Caught without my wings
Lost and sad alone
To the end I've seen
Love become a curse
