

Through The Needle's Eye

My Ticket Home

It's too late to turn back time

First class still with the unknown
Killing myself It's no right
Pull me into lovers arms
I'm not myself tonight
It's so sweet
How you make it seem so real

I hope you know
It's too late to turn back time
If i let you go
Caught up in the mess that we made
Don't say it so
I tried not to see all the signs
But it's all wrong
It's all wrong

Press down
Let's just shove the skin through the needle's eye
Fire!
And lay me down into your heart
I'm a liar for one more night
It's so sweet
How you make it seem so real

I hope you know
It's too late to turn back time
If i let you go
Caught up in the mess that we made
Don't say it so
I tried not to see all the signs
But it's all wrong
It's all wrong

I hope you know
It's too late to turn back time
If i let you go
Caught up in the mess that we made
Don't say it so
I tried not to see all the signs
But it's all wrong
It's all wrong

I hope you know
