you drift in time, 'cause you like what you see, you slake my h

I'm the cut that you bleed, take you far away, no living in my
playground, follow me, I don't need no time to stay, just look
at the way we fell (go)

Come take my life, 'cause you think that you know me and get ou
t of my mind, 'cause I got what you need, fly low, let your eye
s explode, no use to save me now, tell me what I have to see, l
ove lost and raging down, eyes closed, take nothing, hand close
d
