

# Everything Or Nothing

Mýa

Yeah, yeah

Time don't wait for no one  
So my heart and my time I refuse to waste  
You thought you knew the score, but  
There's just so much more when you're caught in the race

What is love without a flame?  
What's a rose without a name?  
What is pleasure without pain?  
It ain't nothing more than empty space

Give me everything or nothing  
Give me everything or nothing at all  
Everything or nothing  
Give me everything or nothing at all

He thought he knew who love was  
'Till he fell in the arms of another extreme  
But who's to say things can't be changed?  
It's your world and tomorrow's not guaranteed

Can't drive a car without the keys  
Give me the bowl 'cause a bite's just the tease  
What good's the bottom without the top?  
And until I get it all, no, I'm not gonna stop, so

Give me everything or nothing (I want it all, I want it all)  
Give me everything or nothing at all  
Everything or nothing  
Gimme everything or nothing at all

(Everything, it's all that I want)  
(Everything, it's all that I want)  
(Everything, it's all that I want)  
(I take what I want)  
(Everything, it's all that I want)  
(Everything, I get what I want)

Everything or nothing (I take what I want)  
Everything or nothing (I take what I want)  
Everything or nothing (I take what I want)  
Everything or nothing (I get what I want)

What is love without a flame?  
What's a rose without a name?  
What good's the bottom without the top?  
And until I get it all, no, I'm not gonna stop, so

Yeah!  
Give me everything or nothing (I want it all, I want it all)  
Give me everything or nothing at all  
Everything or nothing  
Give me everything or nothing at all  
Give me everything  
Everything or nothing at all  
Give me everything

Give me everything or nothing at all

Everything or nothing (I take what I want)

Everything or nothing (I get what I want)

Everything or nothing (I take what I want)

Give me everything or nothing at all
