

Space And Time

Mýa

Breathe in, breathe out
Look up, never down
Feet on the ground
Be proud of wherever you are
Right here, right now
Stand up, speak out
No fear, no doubt
'Cause you're a bright star

Aren't we all just tryin' to get a little peace of mind
Tryin' to figure out the right way to get to our best life
So when the world looks like nothin's really goin' right
Just remember that it's OK to take some space and time

You're gonna feel much better
When you can heal much better
You're deal gonna much better
If you take some space and time

Remember this
Life turns and twists
Don't ever quit
Be proud of whoever you are
Kill all the noise and every negative voice
It's your mind, your choice
Yes you're a bright star

Aren't we all just tryin' to find a little peace of mind
Tryin' to figure out the right way to get to our best lives
So when the world looks like nothin's really goin' right
Just remember that it's OK to take some space and time

You're gonna feel much better (feel much better)
When you can heal much better (heal much better)
You're gonna deal gonna much better
If you take some space and time
You gotta live much better (live much better)
So we can give much better (give much better)
It's gonna be much better
If we take some space and time

Ooh, ooh... space and time
Ooh, ooh... space and time

You're gonna feel much better (much better)
When you can heal much better (much better)
You're gonna deal much better
If you make some (space and time)
You're gonna live much better (ooh) (much better)
You're gonna give much better (ooh) (much better)
You're gonna be much better
If you take some (space and time)
You're gonna breathe much better (ooh) (much better)
You're gonna speak much better (ooh) (much better)
You're gonna sleep much better
If you make some (space and time)
We've gotta try much better (much better)

So we can fly much better (much better)
Live high much better
So just make some (space and time)
Space and time, space and time, space and time, space and time
