

Space

Mýa

Baby you got a hold on me, yea
Don't you let go
Don't you let go
Want this to be more than it is, yea
Just want us to grow
Let it overflow

If my love
Was water
In this room
We drown
I adore you
More than any girl
And In this world
Ever could
Ever could

And I don't need
Space, space, space...
So don't give me
Space, space, space...
Baby please
Suffocate me with all your love
Elevate me with just one touch
Take me to
Space, space, space...

Up up and away
Take me high
We could be like shooting stars
In the sky
No distance between you and I
We're like earth, wind & fire
Desire

If my love (Boy if my love)
Was water (if my love was water)
In this room
We drown
I adore you (baby I adore you)
More than any girl (more than any other girl)
In this world
Ever could
Ever could

And I don't need
Space, space, space...
So don't give me
Space, space, space...
Baby please
Suffocate me with all your love
Elevate me with just one touch
Take me to
Space, space, space...
