Mykki Blanco

Flexing my fit miss finger looks on a looks for your crooks out
here yeah they snatch em'
All of my kit doing my shit looking reckless
Slugs no blood for you draculas
Come take a selfie, come sit with us first
You are scum of the earth and now you wanna act black
What a sack, you silly ratchets with no asses
Crack in the head, crowd quit the bad act
It's whack what you fed feed you
You so hungry for likes you so fucking see through
You so stank on my nerves
On my nose p, you you a bird, and a rat
I don't fucking need you

Smoking blunts with the cunts y'all in the club like [*laughs*]
