

I been feeling low, shawty feeling low  
Out of my zone, I'm on my phone, emotions can't control  
I take a walk, I take a stroll, I can't be going home  
I cause a brawl fucking with y'all, I'm just a broken soul

I'm fucked up, I know that, I need help, I'm so sad  
My best friend this loud pack, my lover my left hand  
I done slammed, I done banged myself up, I'm deranged  
I know I'm really strange, I know I'm not the same  
As I was to you then like I am to you now  
Understand this ain't how I want shit to go down  
Is you fucking with me really?  
You ain't fucking with me clearly  
I'm severely going Grizzly in my head, I feel so dizzy, I...

I don't need your pity, please leave me alone  
I been feeling feelings that I don't condone  
Feeling like I'm about to break my fucking phone  
All these followers around me...

I'm alone, so alone  
I'm alone, so alone  
I'm alone, so alone  
I'm a loner  
I'm a loner  
I'm a loner  
I'm a loner

People get caught up and I don't understand  
Every nigga that's your fam is really just a fan  
Every dude that was your man, he's got a complex  
Was it you or was it him who sent the drunk text?  
No trust, I'm jaded, you're guarded, I'm faded  
I'm standing here wasted on Snapchat, I'm naked  
I done slammed, I done banged myself up, I'm deranged  
I know I'm really strange, I know I'm not the same  
As I was to you then like I am to you now  
Understand this ain't how I want shit to go down  
Are you really gonna screw me? Pull the trigger go and do me  
Feeling gloomy, I'm so loony, all this bullshit, where's the beauty?

I don't need your pity, please leave me alone  
I been feeling feelings that I don't condone  
Feeling like I'm about to break my fucking phone  
All these followers around me

I'm alone, so alone  
I'm alone, so alone  
I'm alone, so alone  
I'm a loner  
I'm a loner  
I'm a loner  
I'm a loner
