(English translation)
Hell is chilly mutha fucka

Seize the night; seize the wine; seize the day
In God we trust
In God we trust
In God we trust

In God we trust

From one well pleased; from the sky to the center
From head to heel; from the opposite
Since deucalion; to set forth from false principles
Blessed in the spirit are the poor

Seize the night; seize the wine; seize the day
In God we trust
In God we trust
With God's help; with God as protector; God willing
Deeds not words
Deeds not words

Today it's me, tomorrow it will be you; man is a bubble
Wolf becomes a man; become a wolf
The very words themselves; the very voice itself
Between the living; within the walls
Inconquered; I remain unvanquished

Seize the night, seize the wine, seize the day
In God we trust
In God we trust
In God we trust
In God we trust

Heartbeat thumpin', bodies goin' down on the floor they jumpin', Las blancas
, gatos, asses, shakin', thumpin', droppin', move that body, ain't no stoppin'

Seize the night, seize the wine, seize the day
In God we trust
In God we trust
In God we trust
In God we trust

Seize the night, seize the wine, seize the day
In God we trust
In God we trust
In God we trust
In God we trust
In God we trust
