

# Want From Me

Mykki Blanco

I woke up today, I'm doing okay  
I've got a longing to feel, I've got a longing to be with you  
A longing to feel a new  
I've chased these blues a few times before  
This time I can't, I will not ignore it  
I'm here to explore it

What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you

You play me like UNO and that's a no-no  
Pessimistic in my mentions, petty nigga got me bitter  
Call my sister, be like, "Girl, this shit is due, pull it"  
Stick 'em to the point, one print, pen cushion  
On the French Riviera, ex-boy tryna sweat you out  
Wash that taste up out my mouth  
What this nigga talking 'bout?  
What you want from me  
I can't give to you  
I see you looking lost  
Dora with no Boots

What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you

What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you  
What you want from me  
I can give to you

What you want from me  
I can give to you  
What you want from me

I can give to you  
What you want from me  
I can give to you
