

# Get Along

Myles Kennedy

I still remember  
Just like it was yesterday  
The moment the gavel  
Brought the fires and the rage

Now it stands to reason  
That in time we'd see a change  
But more things keep on shifting round  
The more they stay the same

Please don't tell me that it's over  
It breaks my heart I fear we'll never make amends  
Where is the love within these borders?  
When will this end?

Why can't we all just get along?  
Why can't we all just get along?

Now father said son you'd better  
Keep this truth in mind  
If we come back together  
We might all get out alive

But the war that is raging  
Between the hearts of men  
For ideas not worth saving  
That might break us in the end

With empty words we keep on fighting  
We're only getting weaker  
Cause we're too headstrong  
When there is no real way of deciding  
Who's right or wrong

Why can't we all just get along?  
Why can't we all just get along?

You're either ignorant or blind

There I said it  
There I said it

I thought we left this shit behind

There I said it  
There I said it

Don't tell me I don't belong  
Don't insist you're right I'm wrong  
The answer in the end was never black or white

With empty words we keep on fighting  
We're only getting weaker cause we're too headstrong  
When there is no real way of deciding who's right or wrong

Why can't we all just get along?  
Why can't we all just get along?

Why can't we all just get along?  
Why can't we all just get along?
