

# Gold

Myles Smith

Met her late in the summer  
Asked her name and her number  
She said, "Whoa  
Let's take it slow"  
That stolen kiss by the river  
Made me shake, made me shiver  
Down to my bones  
But I need you more

And I swore that I'd never fall in love again  
But when you talk like this and you look like that, I, I

I feel like gold  
Electric love is running from my  
Head to my toes  
Addicted to this feeling and I  
Won't let it go  
You fell right out the sky  
Right out the blue  
Blue, oh

I feel like gold  
Electric love is running from my  
Head to my toes  
Addicted to this feeling and I  
Won't let it go  
You fell right out the sky  
Right out the blue  
Blue, oh

And I've fallen so hard, I might break the ground  
Did it feel like this when you left the clouds?  
And I spoke to God, and he told me how  
That an angel lost is a lover found  
I spent half my life begging on my knees  
For a girl like you to want a guy like me  
And it feels so good, I can barely breathe  
But I need my breath back just to tell you that, I, I, I  
Imagine if this song just like stopped and it came back in like-

I feel like gold  
Electric love is running from my  
Head to my toes  
Addicted to this feeling and I  
Won't let it go  
You fell right out the sky  
Right out the blue  
Blue, oh

I feel like gold  
Electric love is running from my  
Head to my toes  
Addicted to this feeling and I  
Won't let it go  
You fell right out the sky  
Right out the blue  
Blue, oh

I feel like gold  
Electric love is running from my  
Head to my toes
