

Made For Me

Myles Smith

Could it have been we went too far?
'Cause there's a void that you left, and it's tearing at my heart
Do you believe we're at the part
After the breakup in a movie where we reignite a spark?

From all that I remember, we'd be better off together
Am I mad for thinking that's the only truth?

I could be wrong, wrong, wrong, well, what do I know?
What do I know?
I could be wrong, wrong, wrong, well, what do I know?
What do I know?
I swore that you
Were made for me
But I could be wrong, wrong, wrong, what do I know?
What do I know?

I think that we could find our way
'Cause we made it through the winter, aren't we owed some summer days?
When luck was down, promised I'd stay
Give up everything I know, and I'll stick it all of it on hope

I swore that you
Were made for me

I could be wrong, wrong, wrong, well, what do I know?
What do I know?
I could be wrong, wrong, wrong, well, what do I know?
What do I know?
I swore that you
Were made for me
But I could be wrong, wrong, wrong, but what do I know?
What do I know?

Mark my words, we'll be back again
Curse our minds and guide our hearts
We've crossed the line where we're only friends
Let's go back to the start

I could be wrong, wrong, wrong, what do I know?
What do I know?

I could be wrong, wrong, wrong, but what do I know?
What do I know?
I could be wrong, wrong, wrong, well, what do I know?
What do I know?
I swore that you
Were made for me
But I could be wrong, wrong, wrong, what do I know?
What do I know?
