

Soon It's Christmas

MYMP

The thought of you keeps haunting me
And it's your face I always see
Wherever I go I always remember

Soon it's Christmas
Yes it's Christmas
But you're not here anymore

Last time it was us together
But we couldn't make it last forever
What can I do each time I remember

Soon it's Christmas
Oh it's Christmas again

Though the stars shine so bright
I just can't feel so right
If I can't find a way to be with you again
On Christmas day
Oh, hoh

Last time it was us together
But we couldn't make it last forever
What can I do each time I remember

Soon it's Christmas
Oh it's Christmas again

Soon it's Christmas
Soon it's Christmas
