

# Hocus Pocus

MYNAME

Everything is ready  
Give me your body and soul  
Oh□Oh□  
Spell can't be broken.  
You're trapped in my mind  
Oh□Oh□

Greedy with your body  
You're naughty more than anyone  
Oh, oh, oh  
I'm starting to feel hot, girl  
You steal my gaze  
oh, no, oh, oh

Some kind of abracadabra  
As today changes into tomorrow  
Some kind of abracadabra  
My body will be filled entirely with you

Approaching with such a fearless expression  
You're already the withdrawal symptom  
I'm completely entranced by your spell  
Is it paranoia of some misunderstanding?  
But this isn't a joke. I want to get away. Help me  
Before I even knew it, I was completely entranced  
She got me trippin' like

Hocus Pocus

Magic, what your beauty is like  
Magic, I don't want to lose my style

But your body  
More than anyone else, naughty  
Oh, oh, oh  
A charming girl hiding her true nature  
Oh, oh

Some kind of abracadabra  
Like the sun becomes hidden by the moon  
Some kind of abracadabra  
Filling the sky with darkness  
Your body too becomes completely...

Approaching with such a fearless expression  
You're already the withdrawal symptom  
I'm completely entranced by your spell  
Is it paranoia of some misunderstanding?  
But this isn't a joke. I want to get away. Help me  
Before I even knew it, I was completely entranced  
She got me trippin' like

Abracadabra  
Get yourself together

Approaching with such a fearless expression  
You're already the withdrawal symptom

I'm completely entranced by your spell  
Is it paranoia of some misunderstanding?  
But this isn't a joke. I want to get away. Help me  
Before I even knew it, I was completely entranced  
She got me trippin' like
