

## Blazing Sky

Myrkur

Bright lights beaming into my eyes  
Blinding my inner thoughts  
I can't leave this room  
I am, I'm not your perfect girl, but  
I am from this earth  
So please show mercy

Can you send me into a blazing sky?  
Shock my limbs until they electrify  
Could you light me up until I fade away?

Three men, seven nurses, I undress  
They follow my every move  
Until I sit down on a bonded chair, I braid my hair  
And I fold my hands

Can you send me into a blazing sky?  
Shock my limbs until they electrify  
Could you light me up until I fade away?

Could you send me into a blazing sky?  
Shock my limbs until they electrify  
Could you light me up until I fade away?
