

## Devil In The Detail

Myrkur

Hear the haunted evening cries  
We eat the sun by night  
Carve my name into the floor  
Close the curtains and the door

'Cause I have crossed a line, and walked into a blurry underwor  
ld  
And I'm sorry  
I wish I could do better, I wish I could escape my demons  
I try

Take my love, take me as I am  
Take my love, take me as I am  
Take my love, take me as I am  
Take my love, take me as I am

What's the matter with you, babe?  
Did you miss me all day?  
I know I gotta make this right  
And turn my magic black to white

'Cause with these powers come responsibilities and heavy burden  
s  
I'm sorry  
Nothing hurts like truth, it's like a scorpion inside my mouth  
I try

Take my love, take me as I am  
Take my love, take me as I am  
Take my love, take me as I am  
Take my love, take me as I am
