Juniper

Myrkur

I want this traitor woman out of here
Me and my mother and my father and brother
This poison apple she must disappear
Me and my mother and my father and brother

Bring her bleeding heart to me
Only when the Gods are free
Bring her to the enemy
Only when the Gods are free

So I ran into the forest black
Hoping to find an answer in the woods
But this time, this time I must turn back
The only answer is I never could

Bring her bleeding heart to me
Only when the Gods are free
Bring her to the enemy
Only when the Gods are free
