

Spine

Myrkur

Swim in the icy lake
I no longer feel the ache
My body made your spine
You and I intertwine

You made me human
Oh-whoa

Stay with me
You will be
The one I love the most
The one I love the most
In the waters, our sons and daughters
The one I love the most
The one I love the most

Salty ocean warming up
Was it soft or was it rough?
Your little home, so tight
Till one day you came to the light

You made me human
Oh-whoa

Stay with me
You will be
The one I love the most
The one I love the most
In the waters, our sons and daughters
The one I love the most
The one I love the most

Stay with me
You will be
The one I love the most
The one I love the most
In the waters, our sons and daughters
The one I love the most
The one I love the most
