

Time Machine

Mystery Skulls

If I had a time machine
We could go back to the start
Would you come back for me, baby?
Glide through the moon and the stars

If I had a time machine
We could go anywhere
If I had a time machine

Stone age into the future, baby
Renaissance to the golden ages
If you could change the world
Would you still be my girl?

If you knew how much you mean to me
You'd get in my time machine

If I had a time machine
We could go back to the start
Would you come back for me, baby?
Glide through the moon and the stars

If I had a time machine
We could go anywhere
If I had a time machine

Find a glitch in the Matrix, baby
Something wrong with the simulation
If we could escape this world
Would you still be my girl?

Do you know how much you mean to me?
Please get in my time machine

If I had a time machine
We could go back to the start
Would you come back for me, baby?
Glide through the moon and the stars

If I had a time machine
We could go anywhere
If I had a time machine

If I had a time machine
If I had a time machine
We could go anywhere
If I had a time machine

Go anywhere [x6]
If I had a time machine

If I had a time machine
We could go back to the start
Would you come back for me, baby?
Glide through the moon and the stars

If I had a time machine

We could go anywhere
If I had a time machine

(We could go, we could go)
(Would you come back for me, baby?) [x28]

If I had a time machine
We could go back to the start
Would you come back for me, baby?
Glide through the moon and the stars

If I had a time machine
We could go anywhere
If I had a time machine

Go anywhere [x6]
If I had a time machine

If I had a time machine
We could go back to the start
Would you come back for me, baby?
Glide through the moon and the stars

If I had a time machine
We could go anywhere
If I had a time machine
...
