

Together

Mystery Skulls

Always thought that I was special
Different from my old thing
I knew that I was something

You know I always had this feeling
I was gonna be the only
One to figure it all out

Gonna love it when I'm older
Love me when I'm stronger
You know I always had this feeling

God I knew that we were special
I knew that we'd get older
I knew that we'd get stronger

It's gonna be you and I forever

It's gonna be you and I forever

God I'm feeling so much better
Can you love me when I'm sober?
I'm feeling so much older

I said I wanna live forever
We'll young and so much better
We'll be the verse that never ended

I got the harder times behind us
Hope trouble never finds us
It'll be you and me together

You're all I have that matters
Love will never scatter
It'll be you and I forever

It's gonna be you and I forever

It's gonna be you and I forever

It's gonna be you and I forever
