

Letters From The Devil

Mystic Circle

In dark medieval times
A nun was chosen by Satan
To spread the dark doctrine
Fulfill his dark wishes
Under the sign of Hell
She wrote satanic verses
Only in her sleep
Dark voices in her head

Letters from the devil
Written in blood
Letters from the devil
Voices from Hell
"Whispering voices
Are in her head
At night they come
To take possession of her"

When darkness falls
He waits for her
A medium for the underworld
A portal to insanity
To speak the words of the devil

1676, the year of blasphemy
In her dreams he appears
The leader of the soulless
Forced to write his words
On a paper with her own blood
That God is a lie
Made by human hand

Letters from the devil
The dark lord spread his wings
Letters from the devil
Insanity exists

"Ad maiorem gloriam satanas

Satana, inventor et magister
Omnis fallaciae
Hostis humanae salutis"
Lost in the shadows
Unable to move
Stare in the eyes of horror
In eternal fear
Visions of mayhem
Whispered in her ear
Encrypted signs
Unholy document

Letters from the devil
Script of the forbidden
Letters from the devil
The god of flames will rise

"I deny the holy cross

I deny Jesus Christ
We rise from the abyss
We are the snakes of evil"

When darkness falls
He waits for her
A medium for the underworld
Possessed by the devil
Forced to spread his words
Bring unholy power
Christianity is a lie
In the darkness, Lucifer's children
In the darkness, beast of Hell
In the darkness is the light bringer
In the darkness, son of the morning star
