

# Throne of the Night

Mystic Circle

Hear the creatures of the moon  
They deny the holy cross  
Only in the night they live  
In the sunlight they are dust  
Howling to the sky above  
In the form of wolves  
Under the stars they walk  
To their next dinner

See the children of the night  
The blooddrinking society  
The oldest castles are their homes  
And they live in coffin  
But one man in their leader  
Many hundred years he's old  
Once his love had killed herself  
And he denied god

Throne of the night - leader of darkness  
Only with one bite he drinks the blood  
Throne of the night - undead awakes  
Lokk in it's eyes - and be dead

"I was bleeding and you licked my blood  
I hear your breathing when I bite you neck  
The vampire walked through the room to the window  
A dead body lay on the body with no blood  
He had found his victim for this night  
And in the shadows of darkness he walked away"  
See the coldness in their eyes  
Lost souls in lost bodies  
Damned to walk in the darkness  
Damned to live forever  
Black their dresses white their skin

They bite into your veins  
And they drink the blood red juice  
To live on and on

Loneliness is on their side  
Ever on the search for love  
An eternal fight they have  
And they want to die  
Armies of the undead awakes  
From the Transilvanian castle  
Dracula is their leader  
To destroy the world

Throne of the night  
Belongs to him  
Leader of wolves  
And of darkness  
Throne of the night  
Adorer of flesh  
Bloodsucking corpse  
Bring you the dead

"Take my flesh  
and take my soul  
I'll be your slave  
From life to death"

Eternal love I gave to him  
Ever by his side  
Be my master from the grave  
My demon tonight
