

Time Will Tell

Mytown

(Da da da da da da da?-)
Only time will tell

Looking back at what we used to have
Now I know
There's something going wrong
What I see
That pains in you and me
Now I hope we can fight it this time

It will be time that keeps us together
And when time ends

It's love left forever
Baby it's time that keeps us together
With this time,
Love won't be forever

Da da da?-Time, only time will tell
I took the chance
I can't deny, so many times
I looked back to realize
Could not see
The possibility
Of you alone, it seems so wrong (baby)

Decisions have to be made
Do no good
Yes I'm scared of what will become of this love
What will become of this love

(Da da da?-Time, only time will, only time will tell)

(Da da da?-Time, only time will, only time will tell)

Seems so right girl
I can't go wrong
I don't want you to be alone
