

Indecisive

N-Dubz

We ain't quite the same (Same)
'Cause it feels like you're colder
It's like I don't even know ya
Now I feel some type of way (Way, way)
You wanna know what I'm thinking?
Why don't you try and listen?

If you're a queen then treat me like a king
Worship the ground that you walk on
But I'm still getting walked on
You keep overthinking everything
This love tings so indecisive
Either end it or ride it

Do you mind?
Don't play with my emotions, baby
All the mind games and the tricks
You've been confusing me
Tried to play me baby like I never knew the truth
Two can play that game but I won't be the one to lose

Was love even made for us
We both find it hard to trust
You do you and I'll do me

'cause we ain't quite the same (Same)
'Cause it feels like you're colder
It's like I don't even know ya
Now I feel some type of way
You wanna know what I'm thinking?
Why don't you try and listen?

If you're a queen then treat me like a king
Worship the ground that you walk on
But I'm still getting walked on
You keep overthinking everything
This love ting's so indecisive
Either end it or ride it

(You keep overthinking everything)
(Either end it or ride it, babe)

We ain't quite the same (Same)
'Cause it feels like you're colder
It's like I don't even know ya
Now I feel some type of way (Way, way)
You wanna know what I'm thinking?
Why don't you try and listen?

If you're a queen then treat me like a king (King, king)
Worship the ground that you walk on
But I'm still getting walked on
You keep overthinking everything (Thing, thing)
This love ting's so indecisive
Either end it or ride it
