When I needed you to listen  
Went through one ear and out  
You never wanna work shit out  
Too busy doing up Barbie  
Need your loving  
You got me  
Always keep me satisfied oh  
How you always in a rush  
You ain't ever got no time for us  
But you're there when it's lit  
Cuffing my wrists  
And you say I'm the one that's moving sus  
Feelings they can change  
Can you treat me right  
You decide  
You're too stuck in your ways  
Open your eyes, open your eyes

Oh 'cause when I say I love you  
You don't believe it  
Nothing new anything I say  
You get conceited  
Gave you the world  
I wish you well my hearts the cleanest  
Looks like you made up your mind

How you crying when you ain't even sentimental  
Should have thought about that shit at the time  
Told you carry on being disrespectful  
And it'd be only a matter of time  
Been through way too much  
You were supposed to make it easy  
I take the stress away  
All you want to do is try and beef me  
How you crying when you ain't even sentimental  
Should have phoned me back when you were mine

You made me run the distance, yes you did  
You always want to run your mouth  
When you wanna try draw me out  
And you still try blame me  
I miss your love but that just ain't enough  
I'll be better on my own if you ain't man enough

I swear you're crazy you'll never change me  
How 'bout you come and buss it for me no safety  
You proper think you're the man  
Boy you make me laugh  
Love you so much it fucking hurts  
Can't make this up

Oh 'cause when I say I love you  
You don't believe it  
Nothing new anything I say  
You get conceited  
Gave you the world  
I wish you well my hearts the cleanest

Looks like you made up your mind

How you crying when you ain't even sentimental  
Should have thought about that shit at the time  
Told you carry on being disrespectful  
And it'd be only a matter of time  
Been through way too much  
You were supposed to make it easy  
I take the stress away  
All you want to do is try beef me  
How you crying when you ain't even sentimental  
Should have phoned me back when you were mine

You just want to waste my time  
You don't even know what you like  
Said you're better without me  
We'll you don't even fulfill my needs  
No stress, good sex and some loyalty  
That's all I need  
Used to love you you even knew how to roll my weed

Go on like you know how to act grown  
But when you're outside, you do the most  
When your hair's all done and your nails all did  
And when you're with your girls  
No one else matters

How you crying when you ain't even sentimental  
Should have thought about that shit at the time  
Told you carry on being disrespectful  
And it'd be only a matter of time  
Been through way too much  
You were supposed to make it easy  
I take the stress away  
All you want to do is try beef me  
How you crying when you ain't even sentimental  
Should have phoned me back when you were mine
