

# The Lights

N-Dubz

I wanna see all the lights, all the lights, all the lights  
Take me back to all the lights, all the lights, all the lights, all the lights  
Every night

Yesterday was lit  
Where's my snaps from last night  
But now I'm drowning all my issues  
Still it don't feel right  
I drunk-text my ex  
Wish I never did  
Now he thinks that we're talking  
Oh I'm such a bitch  
There's a pain in my chest  
It's eating me up  
Someone pick me up

I was so into love now I'm more into life  
Need to get out my head  
Be outside tonight  
It's all in your mind, it's too dark inside  
Let's get it right

I wanna see the fucking lights  
All the lights, all the lights  
Take me back to all the lights  
All the lights, all the lights  
Every night

See last night was lit should have seen all our drip we look lit  
Today I got a hundred missed calls, cos I'm feeling like shit

So i drunk text my ex, why am i such a mess  
She left me on "Read"  
She knew it was just for sex  
If you look in my eyes  
you will see all the pain thats inside  
At the end of the tunnel is where you'll see the light

I was so into love now I'm more into life  
Need to get out my head  
Be outside tonight  
It's all in your mind, it's too dark inside  
Let's get it right

I wanna see the fucking lights  
All the lights, all the lights  
Take me back to all the lights  
All the lights, all the lights  
Every night

Just do the best I can  
Sometimes it don't go to plan  
Wish I had someone who understands  
My frame of mind  
Some of us we done gave up  
But I feel blessed to just wake up

Today could be our last  
Let's make some beautiful memories

Had love but I lost that  
Now my hoes left read on WhatsApp  
I am tryna go home yet  
Where's the next spot at

Someone take me to the afterparty  
Now I'm out here tryna find somebody  
I wanna see the \*\*\*\*\* lights (all the lights)  
All the lights, all the lights  
Take me back to all the lights  
All the lights, all the lights  
Every night

Just do the best I can  
Sometimes it don't go to plan  
Wish I had someone who understands  
My frame of mind  
???? gave up  
But I feel blessed to just wake up  
Today could be our last
