

Vendetta

N-Dubz

We make mistakes sometimes (Whoa, whoa)
I am just human, that's a natural fact
We share the weight of the world on our shoulders
If it all came crashin' down, know I'll have your back
Freedom is priceless
Real love is timeless
Life is ...in' peak right now
And you're my peace of mind

I put the V in Vendetta, uh
I erupt any time I get cuffed
Unless I'm under your surrender
Two wrongs don't make it right
Still I got a big somethin' with your name on it
They lock us up, they let us out, we get the blame for it
We were raised on a curb where we got no words
More time they leave our brains on it

I know I might've been distant for time
Only one to see the truth deep beneath all the lies
From when that I love you, I put my life on the line
Comin' straight for your neck if you're fuckin' with my family ties

I'll be here to lean on
Know I had you from the jump
Tell me anything
I got your back, no need to front (Yeah)
I'm your rock, ain't no breakin' (Breakin')
Even when you feel the walls about to cave in (Cave in)
And here's somethin' you can take from me
Being perfect's a make-believe

We make mistakes sometimes (Whoa, whoa)
I am just human, that's a natural fact (That's a natural fact)
We share the weight of the world on our shoulders
If it all came crashin' down, know I'll have your back
Freedom is priceless (Priceless)
Real love is timeless (Timeless)
Life is ...in' peak right now
And you're my peace of mind

I know this life ain't easy (No)
So I'll be there if you need me (Yeah)
Yeah, it's me and you against the world
I don't need nobody else
All we really need is L-O-V-E

I know it looks like it, but shit, I ain't perfect (No)
And every "L" I took, now I know it was worth it (Trust)
And all my buddies in the can, this one part of the plan
You know I got you 'til you land

We make mistakes sometimes (Whoa, whoa)
I am just human, that's a natural fact (That's a natural fact)
We share the weight of the world on our shoulders
If it all came crashin' down, know I'll have your back
Freedom is priceless (Priceless)

Real love is timeless (Timeless)
Life is ...in' peak right now
And you're my peace of mind

We make mistakes sometimes (Whoa, whoa, sometimes)
I am just human, that's a natural fact
We share the weight of the world on our shoulders
If it all came crashin' down, know I'll have your back
Freedom is priceless
Real love is timeless
Life is ...in' peak right now
And you're my peace of mind

Yeah, brr
