

Sooner or Later

N*E*R*D

Sooner or later it all comes crashing down (crashing down),
crashing down (crashing down) when everyone's around
I bet you would've paid up all your cash down (you'll cash down)
and not make a sound (to make a sound) everyone knows now

(So you're sad)
About the moment you lost your love (Damn)
You couldn't see her leaving
(You were gassed)
And that's sucks don't it
cause God yanked the rug and holding your heart will not help you breathe

Sooner or later it all comes crashing down (crashing down),
crashing down (crashing down) when everyone's around
I bet you would've paid up all your cash down (you'll cash down)
and not make a sound (to make a sound) everyone knows now

It all some crashing down
It's over leave it
It's over leave it
It's over leave it
It's over leave it

(So you're sad)
And you should own it and you fucked up (Damn)
You thought that you were the team
(You were gassed)
And now you're a opponent who wears your gloves (Damn)
A nightmare just ate up your dreams

Sooner or later it all comes crashing down (crashing down), crashing down (c
rashing down) when everyone's around
I bet you would've paid up or you'd cash down (you'll cash down)
and not make a sound (to make a sound) everyone knows now

It all some crashing down
It's over leave it
It's over leave it
It's over leave it
It's over leave it

(So you're sad)
Could have had so much done you blew it off (Damn)
Your chance is passing you by
(You were gassed)
Time waits for no one
And it cost for a lost
Because made joke should you laugh or cry

Sooner or later it all comes crashing down (crashing down), crashing down (c
rashing down) when everyone's around
I bet you would've paid up or you'd cash down (you'll cash down)
and not make a sound (to make a sound) everyone knows now

It all some crashing down
It's over leave it
It's over leave it

It's over leave it
It's over leave it
