

Basic

NIGHTS

Confidence your thing, naturally you find a way
Rock your hips and make them wait
Walking down the street one day
Flow and make them sexy faces, places
Made 'em feel type a way
Feeling faithless, they basic
Never let them take away, you do your thing

People talking let them hate
Brand new apartment decorate
All the time you dedicate
Look at what you generating, they hating
Probably from the mess you made and
We faded grenade, Uber in the Escalade

She's far from basic
Walks inside the room and gets those faces
Makes these other bitches want a facelift
Damn the way she do it catching cases
Far from basic

Lies, just to fascinate the high
I see lust inside your eyes
Lick you down to see you break
Trust me girl no hesitating, we blazing
Begging me for a stay, you're so crazy, so crazy
Always gotta get your way, you do your thing

Luggage picked up at valet
Order steak in Santa Fe
You're too beautiful to wait
Dropped off bags at concierge and, they hating
Middle of an escapade and
We faded grenade, Uber in the Escalade

She's far from basic
Walks inside the room and gets those faces
Makes these other bitches want a facelift
Damn the way she do it catching cases
Far from basic
