

# Casino Royale

## NIGHTS

Wanna work on it  
Heart is pure devoted  
Sacrifice I love it  
Picking sides no reason

Now you know what it's like  
Need to know you're alive  
Love is so dangerous  
All comes in phases  
Least I know you can take it  
Show me how you're amazing

I just wanna work on it  
I just wanna work on it  
I just wanna work on it  
I just wanna work on it  
I just wanna work on it  
I just wanna work on it  
I just wanna work on it  
I just wanna work on it

Love me good score buckets  
Treat me like you want it  
Reason that you love me  
I'll survive without it  
Fall in love all by myself  
I won't need nobody else  
Show me mercy on your way  
Not my problem Mary Jane

I just wanna work on it  
I just wanna work on it  
To feel  
I just wanna work on it  
Sacrifice for all my needs  
I just wanna work on it  
I just wanna work on it  
I just wanna work on it  
It's personal  
I just wanna work on it  
I just wanna work on it  
I just wanna work on it  
(Love love love)

Boyband, boyband, boyband, yeah

Love me good score buckets  
Treat me like you want it  
Reason that you love me  
I'll survive without it
