

It feel like I gotta go
Cut away the pain and let it go
I feel numb inside my toes
If you don't then now you know
Take this cup with Styrofoam
Mix it up and let it go
If you don't then let her know
Now you know

It feel like I gotta go
Cut away the pain and let it go
I feel numb inside my toes
If you don't then now you know
Take this cup with Styrofoam
Mix it up and let it go
If you don't then let her know
Now you know

You got no price tag baby
You were my life pal lady
You're in my head now baby
You got no price tag baby

Now they texting me and blow me kisses
I don't really ever miss em, yea
Made a couple bad decisions
Now I'm coming back to get em
Always try to fight the feeling till I get up in my feelings
See ya wouldn't wanna be ya shawty bout as hot as jalapeno, yea
Exes did ya get the message I'm poppin and over here flexing, ok
Bitches love to start the mixin, all they do is hurt the vision
On the edge of letting go, ima jump jurrnamo
I was high and now I'm low, asking baby where'd we go?

It feel like I gotta go
Cut away the pain and let it go
I feel numb inside my toes
If you don't then now you know
Take this cup with Styrofoam
Mix it up and let it go
If you don't then let her know
Now you know

It feel like I gotta go
Cut away the pain and let it go
I feel numb inside my toes
If you don't then now you know
Take this cup with Styrofoam
Mix it up and let it go
If you don't then let her know
Now you know

You got no price tag baby
