

Pick apart everything about ya
Lying to me like a Gemini does
Late at night makes me wanna sigh, yeah
Dive into you every single night, yeah
Every time it makes me wanna die, yeah
Fucked you in the moment for the hype, yeah

Dark place, dim lights (you want to fuck on me?)
Smoked out my vice
Simmer down, simmer down
Name the price, get it out
Dim the lights, laying low
Lotta cash, lotta dough

I guess tonight's the night
Are you gon' love me hard?
Your body shakes at night
I like it when she cries
I guess tonight's the night
Are you gon' love me hard?
Your body shakes at night
I like it when she cries (talk to him)

Love the way you taste, I'm fucking balling
Making other plans I'm involved in
Preying on your fears just like a lycan
Hunting pussy everything single night, yeah
Love the way you miss me, make it rough, yeah
Lust only pops in mysterious ways
Sleep over, don't get invested
Fall in love and then I pay her rent, yeah

Hustle, then hustle, then hustle, then die
Hustle, then hustle, then hustle, then die
Hustle, then hustle, then hustle, then die
Hustle, then hustle, then hustle, then die
