

# Hopeless

## NIGHTS

Hopeless

Search in the dark for the light cause it's worth it  
The world as we know and its dying its hopeless  
The love we once had wasn't love get over it  
I'm shallow but, baby, trust me it'll be worth it  
The pain that I feel makes us grow it's important

Head up, focus, destined  
Passion, precious love  
Fastened, shooting stars  
Envy, on some dumb shit  
Ego, be the death of me  
Don't let yourself fall down again  
Love myself she's not yours to fix  
Let it flow in the darkness  
Head up, focus on what is left

Hopeless

Love only breathes outside money and fortune  
Open my heart always ends in a burden  
My kindness mistaking as weakness alerts me  
That bitch that I loved nothing's left but a memory  
Success with selfishness always makes me envy

Head up, focus, destined  
Passion, precious love  
Fastened, shooting stars  
Envy, on some dumb shit  
Ego, be the death of me  
Don't let yourself fall down again  
Love myself she's not yours to fix  
Let it flow in the darkness  
Head up, focus on what is left

(Hopeless, I'm hopeless  
I'm hopeless, hopeless)
