These niggas ain't fucking with us man

Said theses niggas wanna rumble with us what  
All my niggas give it up you don't want none  
If you niggas wanna front we gone dump sum  
All my niggas give it up yeah we giving it up  
Said theses niggas wanna rumble with us what  
All my niggas give it up you don't want none  
If you niggas wanna front we gone dump sum  
All my niggas give it up yeah we giving it up

I see the vision through the Cartier frames  
Clique thick like Slick Rick James  
I walk through sand they said was man made  
Abu Dhabi to Dubai the land laid  
Passport change color like food stamps  
Every book due make the crew lamps  
I could still get pone to shoot the police  
And I still gotta stash right in Jeromes fleece  
African killers that straight body ya  
Cutting body parts up send them to Somalia  
Government hating they said they pirates  
Cause when they catch cases they catch silence  
This is that music you shouldn't listen too  
Cause that hustlin spirit a get you ridiculed  
Gorillas the bars them niggas spit at you  
My little niggas they killers and they will get at you

Said theses niggas wanna rumble with us what  
All my niggas give it up you don't want none  
If you niggas wanna front we gone dump sum  
All my niggas give it up yeah we giving it up  
Said theses niggas wanna rumble with us what  
All my niggas give it up you don't want none  
If you niggas wanna front we gone dump sum  
All my niggas give it up yeah we giving it up

Check me out  
Been sick for so long but this shit ain't magical  
These niggas ain't yapping bout much with no capital  
Get it on the arm then I need some collateral  
Ox game real but I'm better with the ladder yo  
Niggas tryna front then my niggas gone dump  
Have your body criss crossed  
So ya niggas better jump  
From Harlem to lefrac  
12 12's I done dealt packs  
The man around these parts  
So ya know where the best at  
East Harlem home of purple city  
And obsession fetti gang the new wave  
Front page not to mention  
Gettin money first we get that  
Then the honey ask niggas what I  
Do in these streets they might smirk

Gotta couple bad bitches  
Send them over to flirt  
They gonna line you up beautiful  
Not what your barber do to you  
Ima rare breed there's only a few left  
In my hood you rock your flag  
To the right or to your left  
Leave a legacy for my youngin  
He gonna be set

Said theses niggas wanna rumble with us what  
All my niggas give it up you don't want none  
If you niggas wanna front we gone dump sum  
All my niggas give it up yeah we giving it up  
Said theses niggas wanna rumble with us what

Ayo they know how I give it up  
Big Glock in the stash box  
When I'm in the truck  
Come through shining  
Have my young niggas stick em up  
Acting like we cool  
When I know they probably sick of us  
Team full of shooters so they can't do shit to us  
Dope is a nine  
It would of been a 20 but I cut three times  
If I gave it to em raw  
My whole clientele would die  
What you know about the trap life  
Blow a whole bag get it back life  
The wop won't jam  
If you squeeze the mack right  
Skinny nigga but I'm heavy on the block  
I run my city nigga  
These other niggas need to stop  
Ima pretty nigga so them hoes gonna flock  
I get busy nigga turn 250 to a block  
That's a crazy stretch  
Hop out now that's a crazy mess  
Tell my bitch get on top  
That's lazy sex  
For 800 nigga coca gotta crazy tech  
Niggas know I don't play  
They ain't play me yet

Said theses niggas wanna rumble with us what  
All my niggas give it up you don't want none  
If you niggas wanna front we gone dump sum
