

# A Long Road Ahead

N'sync

whoaahhh yeah yeah yeah  
(what happened)  
yeah-ayyyyeee  
(i don't get it)  
why, baby, whyyyy?

I fell in love  
I thought you felt the same  
But when I saw you with him  
I knew it was your game

You kissed my lips  
We shared those times  
But when you found out how I felt  
You said you wouldn't be mine

## CHORUS

What did I do?  
Was it just me?  
I feel like I am in too deep  
And I know... that without you  
It'll be a long road ahead

My friends call me up  
I don't know what to do  
I guess they just don't get it  
I don't wanna live without you

## CHORUS

BRIDGE  
From this torture I wish I could be free  
I don't know how you could do this to me...

## CHORUS (2X)

(Sonny & Cher: "I got..... you babe")
