Don't even wanna think about it think about losing you come on  
now just forget about it I don't no wat I'll do your the color  
in my picture the reason for my song your my sun light in early  
dawn (ummmmm) everyday that I wake up it like I blessed all ove  
r again (oooo yea) to spend another day with you let's me know  
how blessed I am (I am) and no matter what we been through you  
never ran away wat I'm really trying to say

It's coming from the heart all this things I say are real don't  
no where to start because everything you do fulfills breaks my  
every wish didn't know we'll be like this, this is coming from  
the heart coming from the heart

Are love is like the mountain I can't believe the clouds so hig  
h it coming from the heart and if we keep on claiming (claiming  
babe) I think we could touch the sky (ooo it coming the heart)  
should the world ever stop turning I would still love you (yea  
I will) every word I say is true (ooo)

It's coming from the heart all this things I say are real don't  
no where to start because everything you do fulfills breaks my  
every wish didn't know we'll be like this, this is coming from  
the heart coming from the heart

Each and every day (each and every day) we go through changes y  
ou don't know who is by your side trying to find away (trying t  
o find away) to different places different places best believe  
that I...

I'll never ever leave you (yeaa) can't see the day that I would  
there no scale that can messure unless it leads all the way so  
don't you worry about nothing alright? Because I want you alwa  
ys (all I wanna say) that's all (all I wanna say) I really wann  
a say (wow wow)

Have u ever tired to find the words to say what's deep inside y  
ou can't figure out the reason why they won't just come out rig  
ht but you gotta tell the world just how, how your life can be  
this is a song for you and me

All this things I say are real don't no where to start because  
everything you do fulfills breaks my every wish didn't know we'  
ll be like this, this is coming from the heart coming from the  
heart
