

Fools

Nada Surf

Fools never learn You play with fire You're gonna get burned

You and I are fools We play with love We're gonna get burned

Fools that's what we are Fools we've gone too far I know

But then love you come to me Your eyes are on fire You're tempting me Love knows no bounds beggar or king It'll bring you down

Fools find love somehow Fools we can't stop now I know

But then love this I know fool I may be But I can't let go Love this I know fool I may be But I can't let go
