

# What Is Your Secret?

Nada Surf

So we sat and talked,  
then we walked and talked but,  
thought it was a truth  
What is your secrete

Drag it on and on  
Even favorite songs  
But your divisions roll  
What is your secret

I don't care about you anymore  
The people got tired  
Our movies don't play much anymore  
The actress was fired

You said you were yourself  
Not being someone else  
But this was new for you  
What is your secret

You said just what I said  
Like it came from your head  
So why's the needle pegged  
What is your secret

I don't care about you anymore  
The people got tired  
Our movies don't play much anymore  
The actress was fired

I don't care about you

Ooo, ooo

I try not to think about you

Ooo, ooo,

You want to control  
You want to be controlled  
You're like a little switch  
And then you take your time

Your every reckless twist  
I wasn't made for this  
Thank god that life is so long  
And the city's so big

So we sat and talked,  
then we walked and talked but,

You said just what I said  
So why's the meter red  
And why's the needle pegged

I don't care about you anymore  
The people got tired

Our movies don't play much anymore  
The actress was fired  
I don't think about you

Ooo,ooo,

I try not to think about you

Oo

I don't care about you any more  
The people got tired  
Our movies play much anymore  
The actress was fired
