

After School Sad Session

Nadhif Basalamah

I'm out of love
But with you it's different
You leave me hoping
Drowning in my fantasies

Should I stay?
Should I wait?
Thinking you might change your mind
But baby you're not mine

No, I don't wanna waste my time
But baby, you're worth the wait
If you could see me just once

No, I don't wanna' waste my time
But baby, you're worth the wait
If you could see me just once
How deeply I fall for you

For you
For you
For you
You, you, you, you
