

## to be with me

Nadhif Basalamah

You told me you forgot the feeling of being loved  
You told me that you're numb, I might as well tell you some  
Things I had before  
Can't deny it anymore  
It feels strange that we clicked but you say no

Oh, I'm catching feelings and this will take long  
Oh, I'm sorry if you seem to take this wrong  
Never thought I'd be so sure  
Only to ask you to be with me  
To be with me  
To be with me

Do you take good care of yourself?  
Or are you faking like everyone else?  
It's only me falling for you  
You don't have to give it too

Oh, I'm catching feelings and this will take long  
Oh, I'm sorry if you seem to take this wrong  
Never thought I'd be so sure  
Only to ask you to be with me  
To be with me  
To be with me

All this will take long  
All this will take long  
Sorry if you seem to take this wrong

I never thought I'd be so sure  
Only to ask you to be with me  
Please just stay, be with me

Oh, I'm catching feelings and this will take long  
Oh, I'm sorry if you seem to take this wrong  
Never thought I'd be so sure  
Only to ask you to be with me

To be with me  
Be with me  
To be with me
