

## Second Nature

Nadia Reid

Loving you is second nature to me  
I was raised on it  
Love and tranquillity

You wanna know who I am?  
Not talk about it  
You were part of my plan  
I did not doubt you  
For the sun rises

I needed an answer  
Found it in your eyes  
On the hard liquor  
It grew a cancer  
Couldn't deny that you were a sweetheart

Loving you  
How I was loving you  
Loving you

Tired of giving  
All of my bright side  
To some guy  
So I am getting back on the good side of this life

You wanna know who I am  
Not talk about it  
You were part of my plan  
I did not doubt you  
For the sun it rises

Loving you  
How I was loving you  
Loving you

There was a witness  
Couldn't describe how I was reeling  
Some sort of karma  
It'll not tell you when it is broken

Loving you  
How I was loving you  
Loving you

Loving you  
How I was loving you  
Loving you

Loving you is second nature to me
