

# All That I Know

Nadine Coyle

Sitting on the edge of our bed  
It's 2 in the morning  
And I can't get no rest  
No, no, I can't get no rest

Going over things that we said  
I should have said "I love you"  
But that's still on my chest  
Yeah, yeah, that's still on my chest

I'm tired of being lonely  
And I just want you to hold me

All that I know is that I miss you  
And I can't be alone  
So when will you come home to fill this empty space  
On the pillow next to me

Sha la la, sha la la la la  
Sha la la, sha la la la la  
Fill this empty space  
On the pillow next to me

This house never felt so cold  
If I had you to hold  
I would never let you go  
Never let you go

Remember dancing in the kitchen real slow  
Turn on the radio  
Those old soul songs never get old  
They never get old

I'm tired of being lonely  
And I just want you to hold me

All that I know is that I miss you  
And I can't be alone  
So when will you come home to fill this empty space  
On the pillow next to me

Sha la la, sha la la la la  
Sha la la, sha la la la la  
Fill this empty space  
On the pillow next to me

Sitting on the edge of our bed  
It's 2 in the morning  
And I can't get no rest, no rest  
I can't get no rest

All that I know is that I miss you  
And I can't be alone  
So when will you come home to fill this empty space  
On the pillow next to me

Sha la la, sha la la la la

Sha la la, sha la la la la  
Fill this empty space  
On the pillow next to me

Fill this empty space  
On the pillow next to me

Fill this empty space  
On the pillow next to me
