

Wildest Dreams

Nadine Lustre

I need to breath
Falling deep into the water
Stuck in a dream
Everything I touch is treasure
I see the flowers blooming
Days are moving
Sun is shining
We're just cruising
Falling deep into the water
Live in the moment
We're just starting

I wanna dive
Weightless stuck in time
Close my eyes fall blind
I'm falling

Cause I'm all in

Falling, falling, falling, falling, falling, falling

I'm seeing purple in the sky I fly so high the sun is waving
My heart is racing stuck in time the plants are calling
Calling, calling, calling, calling

I need to breath
Falling deep into the water
Stuck in a dream
Everything I touch is treasure
I see the flowers blooming
Days are moving
Sun is shining
We're just cruising
Falling deep into the water
Live the moment
We're just starting

I wanna dive
Weightless stuck in time
Close my eyes fall blind
I'm falling

Cause I'm all in

I'm seeing purple in the sky I fly so high the sun is waving
My heart is racing stuck in time the plants are calling
Calling, calling, calling, calling

I'm seeing purple in the sky I fly so high the sun is waving
My heart is racing stuck in time the plants are calling
Calling, calling, calling, calling
