

Autumn

Naethan Apollo

Hello!

If there's one thing you always need to remember
It's that life ends but love is forever

Look, at this point it's pretty gratuitous
To say I love you when that you had something to do with it
It's obvious, right?, well it wasn't to me
When we first met you were something to see

And you still are!

I'm your number one hype man, lights still dark
We don't ever fight like we in Kill Bill, are-
You my number two? Or-
Am I too screwed to get with you?

Well, I would not believe it, unless I could see it
That someone could change me, love me, save me
Now that I saw them, I loved 'em, I fought 'em
My world is full of color, guess they love like autumn

Well, I would not believe it, unless I could see it
That someone could change me, love me, save me
Now that I saw them, I loved 'em, I fought 'em
My world is full of color, guess they love like autumn

Girl, when you springing on me, you fell in love in the summer
Feels like you swinging on me, If I fall first, I wanted it 1
When we make it through the winter, If there's more than one reason
All these retweets and sweet dreams, up in four seasons

So chromatic!

Colors splashing, I'm green with envy to red in my cheeks
It must be magic!
A brand new classic, melodramatic
Full of action, more than attraction
More than the hips that I'm attached at

Well, I would not believe it, unless I could see it
That someone could change me, love me, save me
Now that I saw them, I loved 'em, I fought 'em
My world is full of color, guess they love like autumn

Well, I would not believe it, unless I could see it
That someone could change me, love me, save me
Now that I saw them, I loved 'em, I fought 'em
My world is full of color, guess they love like autumn
