

Dollar Store Date

Naethan Apollo

Hello!

Oh my God, hey! (Hi!)
What brings you this way? (You know)
Okay brain, don't panic, just gonna ask them on a date
Could you, or would you, or possib- ah, what the fuck was that?
Sorry, I got nervous when they looked at me like that (Hey!)
Let's start from the top (Top!)
Quick before I faint (Faint!)
My heart is racing, it's pacing, it's 'bout to run away
Let's try another day (Ah!)
No don't hesitate (Do it!)
I got something to tell you but don't know what to say
You look really cute today
(Oh, thanks!)
And I was wondering if you want to go to a place
Together, at the same time
Like a date
(Hey!)

Lemme know when you make up your mind (Your mind!)
I just wanna be so rock steady (Rock steady!)
Pure affection is hard to find
But you seem to have it down already (Already!)
Lemme know if you're so inclined (Inclined!)
Me plus you is really good math (Good math!)
They say true love takes time
Well, then how'd I fall for you so fast?

So we ended up going to the movies
Uh, but there wasn't actually any good movies playing
So we just saw a dumb one
But it doesn't really matter because it wasn't about the movie, okay?
It was about the date!

We walk up to concessions, I say, "Get what you want"
I think they started blushing, I pay the man in ones
I told him, "Keep the change", he said, "Okay, thanks for the quarter"
We head inside the theatre and turn around the corner
'Scuse me, sir, 'scuse me, ma'am, 'scuse me sir
Okay and, take a seat, take my hand, take a leap, let's take a chance
I really hope this movie's a goodie
I think this date is going 'bout as well as it could be, but
I'll be honest, I wasn't really paying attention to the movie
And about halfway through I looked over at them
And they were looking back at me and they smiled, and
Oh my God, are they leaning in? (Hey!)

Lemme know when you make up your mind (Your mind!)
I just wanna be so rock steady (Rock steady!)
Pure affection is hard to find
But you seem to have it down already (Already!)
Lemme know if you're so inclined (Inclined!)
Me plus you is really good math (Good math!)
They say true love takes time
Well, then how'd I fall for you so fast?

So, after the movie, I had this dumb idea to go to the dollar store
And just buy a bunch of kid's toys and then play with them
And that's exactly what we did
And we played with them for way too long
But it was so fun, and the moment was so perfect
And so, I just when the moment was right
I asked if they wanted to be together
And they actually said yes!

I can't believe you really made up your mind (Your mind!)
Now we're gonna be so rock steady (Rock steady!)
Pure affection is hard to find
But you seem to have it down already (Already!)
Now I kick it with you all the time (The time!)
Me plus you is really good math (Good math!)
They say true love takes time
Well then how'd I fall for you so fast?
