

# Grave Digger

Naethan Apollo

I dug out the big hole  
Out the big hole  
That I go down  
I dug out the big hole  
Out the big hole  
That I go down  
Go down, go down, go down  
Watch me go  
Go down, go down, go down  
Watch me go

I may never get to see the light of day again  
'Cause these walls stretch so high around me  
I just kept on digging and digging and  
Now the bottom of the hole is where you found me  
So, is this the end?  
It could be worse but let's not pretend  
My situation's easy to win  
And I can't even blame my friends 'cause

I dug out the big hole  
Out the big hole  
That I go down  
I dug out the big hole  
Out the big hole  
That I go down  
Go down, go down, go down  
Watch me go  
Go down, go down, go down  
Watch me go

So take a look, take a look, take a listen  
I may be stuck in a peculiar position  
But while I sit in a pit full of darkness  
I look up and see a funny vision  
All my friends have shown up to tell me  
As they reach out their hands down low  
They say that they are happy to help me  
Even though

I dug out the big hole  
Out the big hole  
That I go down  
I dug out the big hole  
Out the big hole  
That I go down  
Go down, go down, go down  
Watch me go  
Go down, go down, go down  
Watch me go
