

## Heaven & Bliss (Interlude)

Naethan Apollo

If we can put an astronaut on the moon  
Then I can cross the ocean to be with you  
If we don't like the Earth the way that it is  
Then we can make it a place of heaven and bliss

And it starts with a kiss  
Yeah it all starts with a smooch  
And if you gave me one wish  
I'd wish that I was with you  
If only we had a home  
A tiny house with a view  
There's nothing that I won't do  
There's nothing that I won't do

If we can put an astronaut on the moon  
Then I can cross the ocean to be with you  
If we don't like the Earth the way that it is  
Then we can make it a place of heaven and bliss  
If we can put an astronaut on the moon  
Then I can cross the ocean to be with you  
If we don't like the Earth the way that it is  
Then we can make it a place of heaven and bliss
