

Hungry World

Naethan Apollo

Chew me up, spit me out, but you won't break me
Toss me up, shoot me down, but I still don't scream
You leave me cut and kick me down just to watch me bleed
But this hungry world won't eat me

Chew me up, spit me out, but you won't break me
Toss me up, shoot me down, but I still don't scream
You leave me cut and kick me down just to watch me bleed
But this hungry world won't eat me

Oh, no, no, no
It will not gobble me up
Even when I'm down on my luck
Still can't get enough
And I feel like I'm strong even though I ain't buff
The people be scary and the world's getting tough
And my skin getting tougher
I've seen that we suffer
And hate comes in bold
They take me for a sucker
It's sucky, they still call me lucky, that's nuts
They all want the glory, but ain't got the guts

Chew me up, spit me out, but you won't break me
Toss me up, shoot me down, but I still don't scream
You leave me cut and kick me down just to watch me bleed
But this hungry world won't eat me
