

## You Suck <3

Naethan Apollo

Hello

You wanted love from me  
I didn't fuck with you  
You said you wanna link?  
I didn't want to  
But you pulled up anyway  
Said you were on the way  
Look where we at today  
I think I love you

Now I'm so in love  
Now I'm so in love  
Now I'm so in love  
You suck  
You suck  
You suck  
Now I'm so in love  
Now I'm so in love  
Now I'm so in love  
You suck  
You suck  
You suck

Cupid shot me with his arrow  
When you picked me up  
I was at the bottom of the barrel  
Now you got me in your arms  
And I be on straight and narrow  
People think I'm fruity now  
They say it's my apparel  
But I'm feeling like a pharaoh  
Yeah, I'm feeling like a king  
All the fellas hate my voice  
But my girl loves it when I sing  
And every time we link  
I'm falling harder than I think  
And if she keeps this up  
I might just have buy to a ring

Now I'm so in love  
Now I'm so in love  
Now I'm so in love  
You suck  
You suck  
You suck  
Now I'm so in love  
Now I'm so in love  
Now I'm so in love  
You suck, You suck, You suck

Never thought of the future like this  
Now my shit a little too precise, It's  
Crazy how the days and nights'll mix  
This is not the same me I'm convinced  
Used to ride alone  
Now I ride a long way for solace  
Cross the nation same day for face to face

Timing ain't a thing  
Miles away, you still find a way to bring balance  
I could get used to this  
Celebrate the same way at new events  
And stay safe the same place  
I play straight face  
And scrape a chance to see you again  
And my bad if I see the future too deep  
And use the loose leaf  
To paint a scene for whole crowds to list  
But I can't picture this life of bliss  
And look proudly without you in it  
I'm sprung

Now I'm so in love  
Now I'm so in love  
Now I'm so in love  
You suck  
You suck  
You suck  
Now I'm so in love  
Now I'm so in love  
Now I'm so in love  
You suck  
You suck  
You suck
